

EQUIPMENT OPERATOR II

DISTINGUISHING FEATURES

The fundamental reason the Equipment Operator II position exists is to operate large sanitation trucks picking up brush and other uncontained debris on a sanitation route. Assists and directs assigned co-workers in loading material into truck. This is the intermediary position in the Equipment Operator class in the Solid Waste Management Division of the Municipal Services Department. This position is distinguished from the Equipment Operator I by the possession of a Class B CDL with air brake endorsement that permits the EO II to be the primary driver on the assigned route. This classification is non-supervisory. Work is performed under the general direction a Solid Waste Service Coordinator.

ESSENTIAL FUNCTIONS

Operates large, rear-loading packer truck manually picking up brush and other debris on established routes. Drives load of packed material to landfill for disposal.

Directs the work of Equipment Operator I in feeding material into hopper of rear-loading packer truck. Assures that safe working practices and rules are followed. Responsible for the quality control of cleaning alleys and streets after brush is collected.

Assists citizens and customers with service issues and concerns as needed. Provides educational information to customers verbally and through dissemination of printed materials.

Displays conduct in support of Scottsdale's Employee Values.

Records number of loads and tonnage. Keeps simple time and activity records. Performs CDL equipment check daily. Reports any route, equipment or operational problems to Manager daily.

Trains Equipment Operator I on operation of equipment and assigned routes.

Receives training as Equipment Operator III, and drives truck on a relief and training basis. Learns job-related procedures and techniques, primarily through on-the-job training, oral instruction and observation.

Attendance and punctuality are essential functions to this position.
